

BT898

ENHANCED PITCH STACKABLE HEAVY DUTY PROJECTOR MOUNT WITH PULL-OUT SERVICE TRAY

IDEAL FOR
PROJECTION
MAPPING

Designed to floor mount projectors up to 75kg, this heavy duty mount can be stacked to create a column of XL projectors. Similar to the BT897 projector mount, the BT898 features enhanced pitch of 30° for a greater angle of adjustment (accommodated by a taller cage to protect the projector at the enhanced angle). The projector fixes to a slide out tray which allows for quick and easy servicing without needing to disassemble any part of the installation. Pitch, yaw and roll micro-adjustment allows easy alignment of projected images. Cable management is included for a neat and tidy installation. This projector can be used independently or in conjunction with the BT897 heavy duty stackable projector mount.

SPECIFICATION

| | |
|--------------------|-----------------------------------|
| Max load | 75kg per unit |
| Max projector size | up to W: 800 x D: 1000 x H: 350mm |
| Tilt (pitch) | 30° (in 5° increments) |
| Yaw | 2.5° |
| Roll | 4.5° |
| Max stack | 4 units |

FEATURES

- Modular design allows mounts to be stacked up to 4 high
- Projector tray slides out to allow access to the projector for servicing & adjustment
- Projector can be quickly connected or disconnected for off-site servicing if required
- Tool-less micro adjustment
- Tilt, pitch and yaw positions are maintained while projector is disconnected, eliminating the need to re-calibrate micro-adjustments after servicing
- Integrated cable management
- Open design gives suitable ventilation for projectors
- Designed for indoor or outdoor use when protected in a sheltered environment

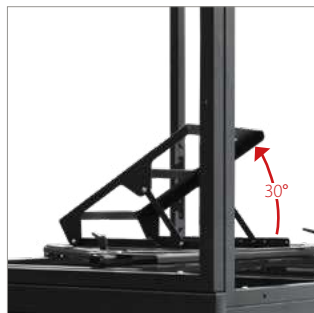

PER UNIT

** Only one projector can be in the service position at one time*

Slide out tray allows quick and easy servicing without any disassembly

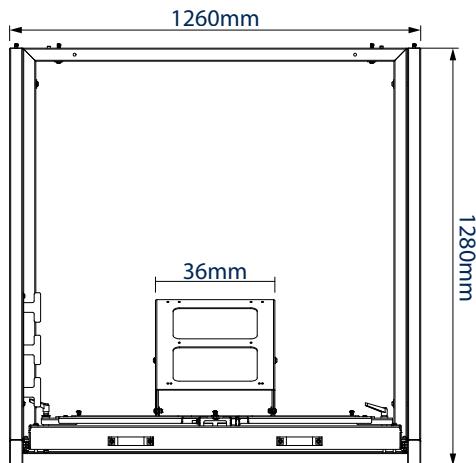

Features enhanced pitch of 30° in 5° increments

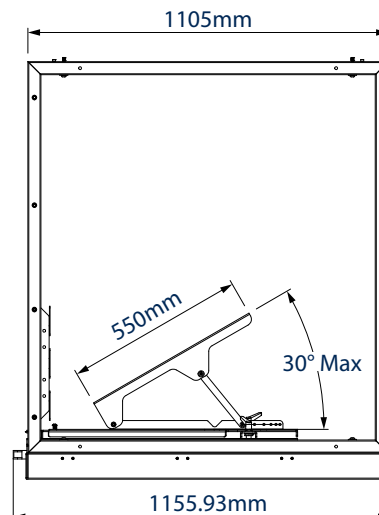

Micro-adjustment for perfectly framed projection

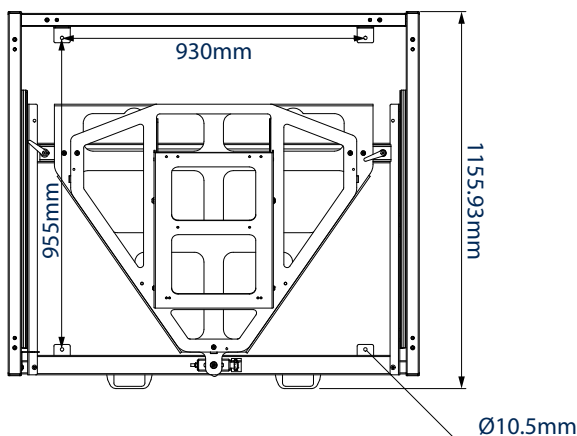

Can be used in conjunction with the BT897 Stackable Projector Mount (middle/ bottom tiers)
