

BT8508

SYSTEM X™ TOUCHSCREEN TROLLEY FOR 84" MICROSOFT® SURFACE HUB™

The BT8508 is a mobile solution designed to mount Microsoft's 84" Surface Hub and other extra-large interactive displays over 72". Capable of supporting heavy duty loads, the trolley has a welcome rigidity which means mounted touchscreens do not move or flex whilst in use. Levelling screws allow easy height adjustment of the screen once mounted and integrated cable management keeps finished installations neat and tidy. Non-marking 4" braked castors allow the trolley to be re-located easily and safely without marking or scuffing floor surfaces.

Simple 'hook-on' installation

Interface arms include levelling screws to adjust the height of the screen

Includes non-marking 4" locking/braked castors

Collar compatible accessories such as shelves can be fitted directly to the columns

Black Base & Black Columns
