# 10W Integrated LED Floodlights

## Product Benefits

- High efficiency and energy saving
- Long life span - 50,000hrs
- Ability to be used on work sites where only 110VAC is permitted as well as 240VAC, no need for two different LED floodlights.
- No UV & IR
- Environmentally friendly and recyclable – Mercury and Xenon free
- Unique integrated light sources
- High quality bridge lux chip
- High colour rendering index
- Thermal design - integration of the advanced die-casting forming
- IP65 rated

## Information

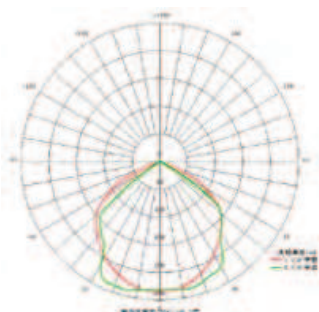

Our LED floodlights have an extremely long life making replacing worn out bulbs a thing of the past, saving labour costs to replace bulbs with short lifespans. They are able to create super bright, shadow-free security and have a wide beam

distribution for general purpose flood lighting. Fixtures come with a yoke-style arm and can be positioned in almost any angle with a variety of application settings.

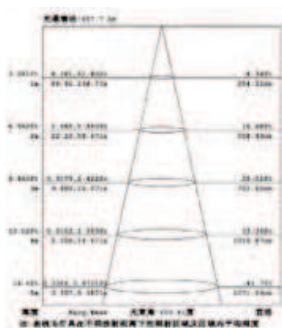

# Product Specification

Feature	Specification
Wattage	10(W)
Brightness	660(lm)
Colour	White
Colour Temperature	6,000(K)
Fixture Colour	Black
Rated Lifetime	50,000(h)
Beam Angle	120°
Energy Class	A+
Lamp Current	300(mA)
Input Voltage	100 - 240VAC
Frequency	50/60Hz
Switching Cycles	25,000
Starting Time	< 0.5(s)
Power Cable	0.75mm <sup>2</sup> x three core 30cm length
Power Factor	> 0.5
Protection Rating	IP65
CRI	> 70
Material	Glass, Aluminium
Dimmable	Non-dimmable LED
Shock Proof	Yes
Certification	CE (LVD) (EMC)
Net Weight	0.26 kg
Warranty	2 Years

Light distribution curve (10W)

Effective AAI Figure (10W)
