19” Wall Cabinets

Product Benefits

- Steel frame, simple assembly structure
- Labelled U markings inside to aid with installation
- Tempered glass front door
- Removable side panel with latch, easy to install and maintain
- Cable entry on the top cover and bottom panel with knock out plate
- L-shaped mounting profile, easy to adjust on the mounting rail
- Quick release spring pin front door
- Side rubber mounts keep the side panels firmly in place
- Can be customised to individual requirements
- The frame can be removed/adjusted according to requirements
- Cabinets are finished in grey RAL7035
- Midas Cabinet complies with IEC 297-2, EN12150-2 and RoHS

Information

These wall mountable cabinets are designed for the installation of both the networking equipment and cabling. The cabinets are designed to offer ease of installation and greater access to your network hardware, perfect for areas where space is limited. Ideal for a wide range of applications including local area networking (LAN) cabling and hardware. These cabinets are also suitable for the secure housing of security and AV equipment.

Also available; IP54, IP66 enclosures
